# BODYGUARD AND HIGH CARE® TREATMENT

The systematic  
connective tissue  
tightening with  
negative oxygen ions  
and near infrared light

 **WEYERGANS**  
high care® cosmetics

Treat your skin with not less than a world innovation!

Higher concentrations of negative oxygen ions can stimulate processes like our metabolism. The Dermionology® transferred by Bodyguard supplies the skin with an ion concentration which is around 1000 to 2000 times higher than the maximum natural occurrence.

#### NEW AT YOUR BEAUTICIAN: CONNECTIVE TISSUE TIGHTENING WITH BODYGUARD

The Bodyguard is the apparative highlight of the differentiated cellulite treatment (DCT®) by Weyergans. The fascinating effect of this patented process (patent no. DE 10 2017 008 007 A1) is based on the unique combination of two technologies.

Lie comfortably and let yourself be pampered. You are wrapped in a transparent plastic cocoon from the belly button downwards. A warm plasma of concentrated negative oxygen ions flows through the shell and surrounds your skin. For best results your beautician will set the beneficial flow of energy - suitable for skin type and problem. Feel how the power of Dermionology® relaxes and refreshes you. Up to 60 minutes without any side effects.

- Patented technology
- Aims at the acid-base balance of the skin
- Makes you feel youthfully fresh
- Relaxing
- Gives a great skin feeling
- For every skin type

The Bodyguard not only guarantees you privacy, but also functions as a light shower which irradiates your skin with pleasant near-infrared light in the area of application. While the plasma flow aims at the acid-base balance of the skin, the long-wave near-infrared light promotes a youthfully fresh feeling. And these effects increase each other.

#### DIFFERENTIATED CELLULITE TREATMENT (DCT®) WITH HIGH CARE®

HIGH CARE® products can help to alleviate structural cell breakdown, inflammatory reactions and oxidative stress. They are an important element of every DCT®. You can also use them simply and effectively as solitary care products - in your institute or at home.

#### BODYGUARD AND HIGH CARE® SERIES: EFFECTIVE COMBI-TREATMENT

Finally, you can re-experience the good feeling of pampered skin on your stomach, legs, and buttocks. The multiple activation of the body's own regeneration processes supports the skin in regaining its former radiance. The different treatment steps are suitable for every skin type. Your HIGH CARE® beautician exactly knows which combination of apparatus treatment and care products is the best for you. Secure your appointment with Bodyguard!
